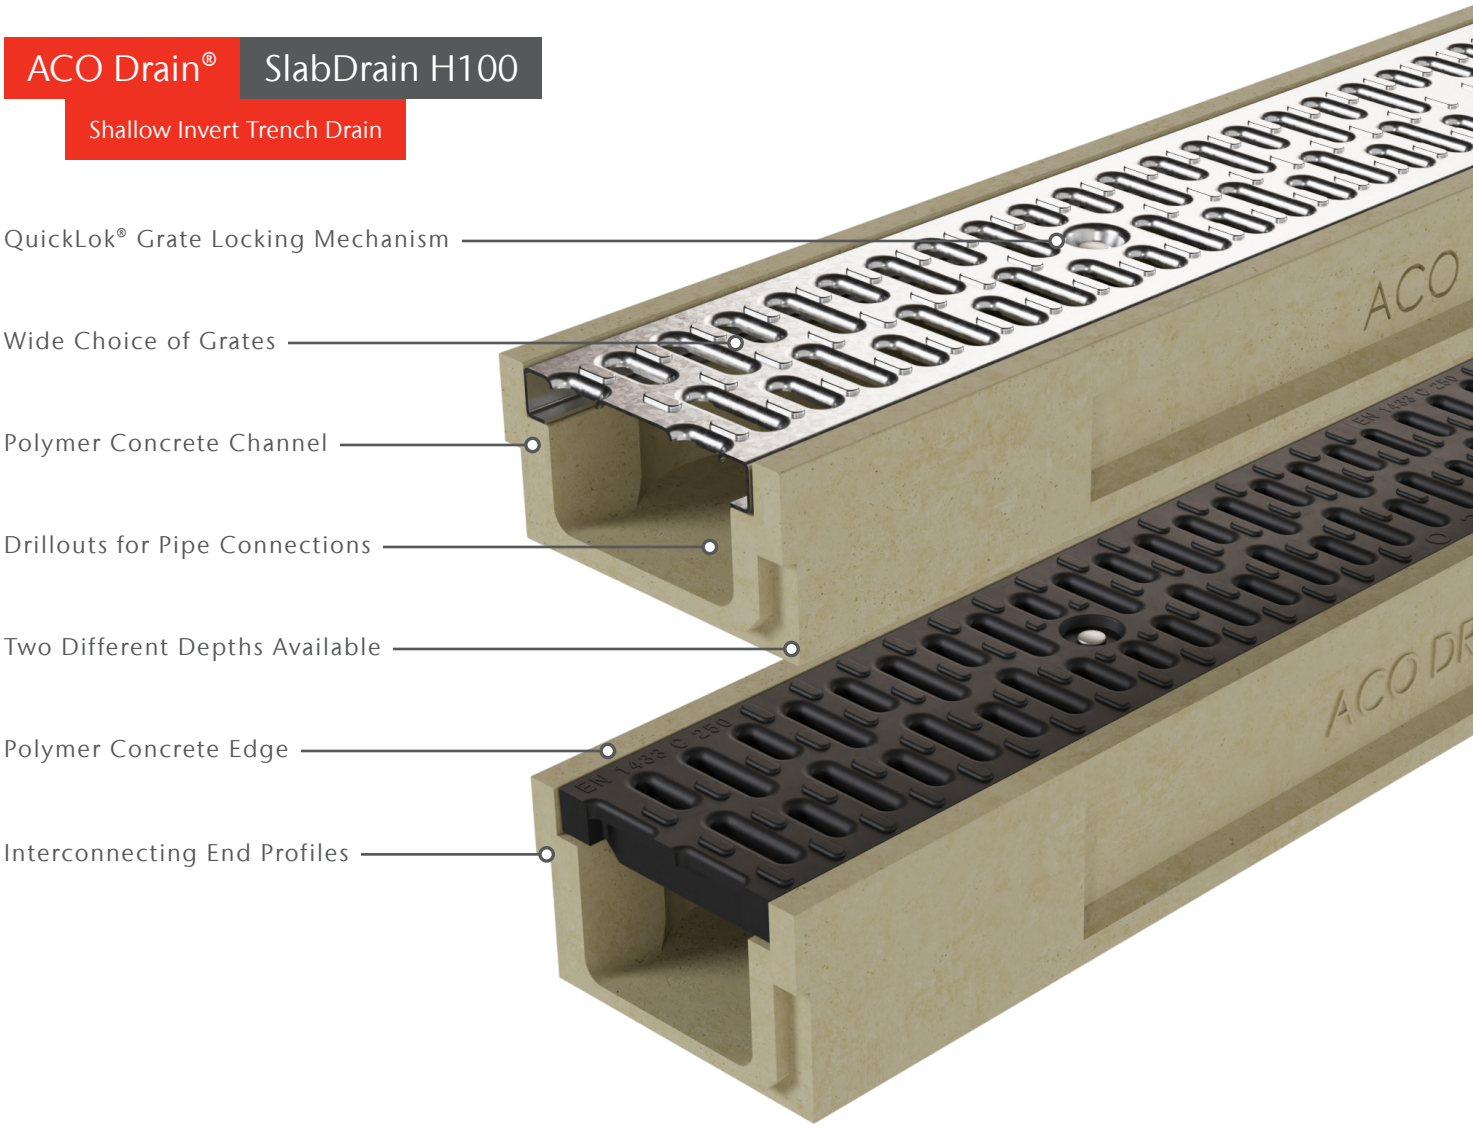
ACO Drain® SlabDrain H100

Shallow Invert Trench Drain



On occasion, installation constraints are of greater concern than hydraulics. The most common constraint is lack of depth. SlabDrain H100 shallow, constant-depth channels are available in 3" and 4" depths to offer solutions where shallow trench drains are required.

KlassikDrain K100 grates with QuickLok® are compatible with SlabDrain H100 channels.

TYPICAL APPLICATIONS

- Restricted-depth applications
- Threshold applications
- Elevated slabs
- Parking decks
- Retro-fit

Loading class is grate-dependent.

QUICKLOK® - BOLTLESS LOCKING SYSTEM

QuickLok® is a patented, boltless locking system offering quick fitting and removal of grates. Use of QuickLok grates reduces installation and maintenance time and cost. Grates are supplied with a QuickLok locking stud which push-fits into a stainless steel spring clip in the QuickLok locking bar.
