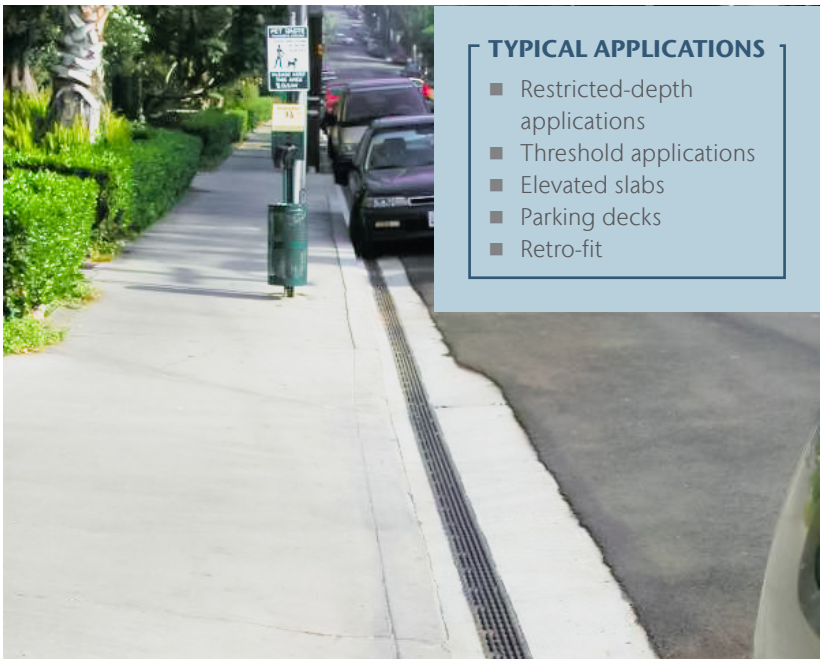
ACO Drain® SlabDrain HSK

Shallow Invert Trench Drain

On occasion, installation constraints are of greater concern than hydraulics. The most common constraint is lack of depth. SlabDrain HSK shallow, constant-depth channels are available in 3 different depths to offer solutions where shallow trench drains are required.

PowerDrain® grates with PowerLok are compatible with SlabDrain HSK channels and are most suitable for applications with heavy loading.

Loading class is grate-dependent.



TYPICAL APPLICATIONS

- Restricted-depth applications
- Threshold applications
- Elevated slabs
- Parking decks
- Retro-fit

ACO Drain® SlabDrain HSK

Shallow Invert Trench Drain

POWERLOK - BOLTLESS & BARLESS LOCKING SYSTEM

A patented, boltless locking system that allows for quick fitting and removal of grates, helping reduce installation/maintenance time and cost.
